

TODD I. LONG, PE, PTOE

BACKGROUND

Todd Long joined Atlas Technical Consultants in 2018 and currently serves as the Georgia Division Lead for the Duluth Office. He has 32 years of experience in government services with focused experience in planning, engineering, operations, and administration for large governmental organizations and has served in leadership roles for much of his career. Todd has immense experience with GDOT in multiple positions that included Deputy Commissioner, Director of Planning, Director of Preconstruction, District Engineer, and District Traffic Engineer.

After retirement from GDOT, Long served as Chief Operating Officer for Fulton County from 2015 to 2018. He led the day-to-day activities of the County's customer-facing departments covering over 2,000 employees. This included management of Transportation, Water/Sewer, Airport, Parks, 911 Services, Libraries, etc.

Todd just completed his 5th year of teaching CE6605 Transportation Administration and Policy as an Adjunct Professor during the Spring Semester at Georgia Institute of Technology (Georgia Tech). He has taught nearly 100 graduate students over this period in this 3-hour course. Todd has also served on the Georgia Tech Civil Engineering Advisory Board.

Todd has a long history of involvement with ITE starting as a graduate student at Georgia Tech. He served as the Georgia Section ITE President in 2004. He served as the Southern District ITE President in 2019. He won the Georgia Section ITE Professional of the Year Award in 2016 as well as the SDITE John Exnicios Public Service Award in 2010. He also served as the SDITE Annual Meeting Co-Chair for the 2014 SDITE Annual Meeting. Todd also helped develop the Transportation Engineer of the Future Scholarship and co-chaired the Georgia Section ITE's first ever mentoring committee.

Todd is married to Kelli Long (also a GT alum). They have four grown children and live in Lilburn, Georgia.
